FOR IMMEDIATE RELEASE

TMF Continues Tradition of Support for Veterans

Austin, Texas – Nov. 11, 2026 – TMF Health Quality Institute has a strong tradition of support for the veteran community, most recently donating $250,000 to the Gary Sinise Foundation, a nonprofit dedicated to supporting veterans, defenders, first responders and their families through a variety of programs including homebuilding, mobility devices, appreciation meals, mental wellness and many more. The Gary Sinise Foundation supports thousands of veterans and their families each year.

“TMF is so proud and pleased to continue to do our part to support our nation’s veterans and their families,” said TMF CEO Tom Manley. “The Gary Sinise Foundation is a dynamic organization that provides critical programs and aid. On this Veterans Day, we want to extend our gratitude to all those who have served for their dedication and sacrifices.”

TMF’s previous support for veteran programs includes contributions to the VFW Foundation Supporters program. The Supporters program is focused on enhancing the understanding of the general health and mental health needs of the veteran population and equipping the VFW staff members, veterans service officers and others with the knowledge and skills necessary to effectively support veterans in navigating their benefits and accessing appropriate health services.

TMF’s support also includes contributions to our local hometown community for the Meals on Wheels Central Texas Home Repair program. Through the Home Repair program, Meals on Wheels Central Texas provides major safety repairs and accessibility modifications for eligible clients, with a primary focus on U.S. veterans.

About TMF Health Quality Institute
TMF Health Quality Institute focuses on improving lives by improving the quality of health care through contracts with federal, state and local governments, as well as private organizations. For more than 50 years, TMF has helped health care providers and practitioners in a variety of settings improve care for their patients. Visit www.tmf.org for more information.
